**Abstract:** Every organ in the body works at a specified frequency and the respective organ gets into imbalance zone, once there is a change in its working frequency. Generally this imbalance is brought to balance, using Medicines which normally carry the required frequency to repair the organ and bring it to balance. Other natural methods such as Aromatherapy, Colour therapy, Sound therapy etc., are also used by practitioners to supply the required frequency to the organ and bring it to balance. We have developed a Technique called 'Frequency Embedded Crystal Ball Water Technology', to infuse the required frequency to the imbalanced organ through ingestion of Frequency Embedded water, produced using our Technology.

**Keywords:** Frequency, Frequency Embedded water, Aromatherapy, Colour therapy, Sound therapy.

## 1. INTRODUCTION

The frequency and vibration have been adopted at various times by various Scientists and Medical Professionals to address body imbalances, which concretizes the basis of our research.

**“Everything in Life is Vibration” – Albert Einstein**

Nikola Tesla - If you wish to understand the Universe think of the secrets of the universe by energy, frequency and vibration. Tesla was simply stating that everything has energy and energy gives rise to vibration at a frequency determined by that energy and the mass of the vibrating components. Ascended Master Saint Germain has said that, in truth, all one really needs to do to change any aspect of their life, heal any dis-ease, create abundance, or achieve Transfiguration of the physical body into the Ascended Realm, is to raise their vibration and frequency.

**Dr Ronald Rife** - Vibration/frequencies can kill disease organisms. There is agreement among science, medicine and metaphysics that certain frequencies can repel disease, and certain frequencies can destroy disease. Herein lies the link between frequency (vibration) and health. Everything in nature vibrates at different frequencies. In fact quantum physics describes the universe as nothing more than vibrating strings of energy! Scientific research has shown that different parts of our bodies have their own sonic signature. In other words the sound of the cells of our heart differs from the sound of the cells of our Lungs.

## 2. VIBRATION MEDICINES

Vibration medicine is one of the most, if not the most widely studied field of medicine today. There is now global interest and research in the clinical applications of Vibration Medicine. Vibration Medicine, of which Homeopathy is a part, has been used by various systems of medicine throughout the ages, but because of its subtle nature, until recently it has been largely ignored by the mainstream medical establishment. Fortunately, this is no longer the case. Advancements in modern technology have made it possible for the unseen/subtle to be seen. Researchers can now view and measure the body's subtle energy fields, as well as changes in these fields after Vibration Medicine modalities have been applied. With these findings has come a new surge of global interest, research, and discoveries in all systems of medicine vibration in nature. Vibration medicine interfaces with subtle energy fields that underlie the functions of a physical body. It is based on the idea of resonant frequencies, similar to a tuned string on a musical instrument resonating with anything tuned to the same frequency, or an opera singer smashing a glass by singing at a certain pitch. Some sciences and philosophies have recognised vibration elements as an important part of the universe. Even as long ago as 1928 Thomas Surge recognised vibration elements at work in the human body

*"The human body is made up of electronic vibrations, with each atom and elements of the body, each organ and organism, having its electronic unit of vibration necessary for the sustenance of, and equilibrium in that particular organism. Each unit, then, being a cell or a unit of life in itself has the capacity of reproducing itself by the first the law as is known as reproduction-division. When a force in any organ or element of the body becomes deficient in its ability to reproduce that equilibrium necessary for the sustenance of physical existence and its reproduction, that portion becomes deficient in electronic energy. This may come by injury or disease, received by external forces. It may come from internal forces through lack of eliminations produced in the system or by other agencies to meet its requirements in the body."*

*Edgar Cayce (1928) from There is a River by Thomas Surge.*

Every object has a natural vibratory rate. This is called its resonance. One of the basic principles of using frequency as a transformative and healing modality is to understand the idea that part of the body is in a state of vibration. Every organ, every bone, every tissue, and every system--all are in a state of vibration. Now, when we are in a state of health, the body puts out an overall harmonic of health. However, when a frequency that is counter to our health sets itself up in some portion of the body, it creates a disharmony that we call dis-ease.

#### **What is illness?**

*"Emotional issues that are unresolved block the healing vibrations or cause the disease state to return."* R Gordon

#### **What is the mechanism for healing Resonance?**

*"When two systems are oscillating at different frequencies, there is an impelling force called resonance that causes the two to transfer energy from one to another. When two similarly tuned systems vibrate at different frequencies, there is another aspect of this energy transfer called entrainment, which causes them to line up and to vibrate at the same frequency."* (Richard Gordon)

#### **Frequency Embedding Technology**

Understanding the role of frequencies in ensuring Human wellness, we researched and have invented a New Naturopathy Method of balancing the imbalanced organs of the body, using our Proprietary Technology '**Frequency Embedding Technology**'.

### **3. PRINCIPLE OF WORKING**

Every organ in the body works at a specified frequency and the respective organ gets into imbalance zone, once there is a change in its working frequency. Generally this imbalance is brought to balance, using Medicines which normally carry the required frequency to repair the organ and bring it to balance. Other natural methods such as Aromatherapy, Colour therapy, Sound therapy etc., are also used by practitioners to supply the required frequency to the organ and bring it to balance.

### **4. PROCEDURE**

After extensive Research on Frequencies and the Frequency Embedding Technologies, we are now in a position to embed the required specific Frequency to a Crystal Ball and supply the required frequency to the imbalanced organ through water and bring it to balance.

1. The frequency embedded Crystal Ball is put into glass of water.
2. It transfers the embedded frequency to the water within **10 minutes**. Since water has memory, it receives and registers the transferred frequency.
3. When this water is consumed, the imbalanced organ gets its required repairing frequency and gets into balanced zone. Since, only water is consumed, there are no side effects associated with this method. Further the water consumed gets out as urine, after transferring the required frequency to the organ. Therefore this is a very Safe, Non invasive, Alternative and Natural method, of bringing the organs to balance.
