DEPARTMENT OF VEDIC ASTROLOGY

VELS INSTITUTE OF SCIENCE, TECHNOLOGY & ADVANCED STUDIES

PALLAVARAM, CHENNAI – 600 117

Abstract: The scholar discuss about the science facts of Nadi Astrology and analyses case study horoscopes of atomic energy station staffs on advanced scholars Nadi astrology method and proved the results of planetary connectivity

Keywords: Birugu Nandi Nadi , astronomical, no vision, zodiac direction, SIM coding, statistical tests, theoretical frame work invisibles celestial bodies, planetary connectivity, Unknown physiological energy.

I. INTRODUCTION

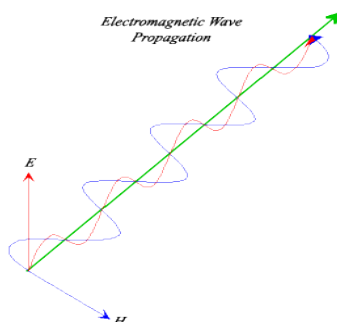

In Astrological subject many method influenced in society .But the Bhriugu Nandi Nadi is one of the most powerful Astrology and also it helps to the astrologers at different ways to predict the humans futures with the support of unknown physiological energy connectivity at astronomical planetary positions .It developed and reformed by Mr .RG Rao at last century in India .In this method he says no vision at all planets each other like as basic Vedic astrology.

He says same zodiac direction planets work together based on their Astro characters and places. That means Aries, Leo and Sagittarius are denotes Fiery and East directions also sign's placed Naksthra owners are also the same on three signs. So he treats at any planets placed on these at same directions and also works together at first level of eastern direction planets

In this continues 1,5,9 connected together at first level and 3,7,11 at second level ,2 at third level and 12 at fourth level this is the one point rule of R G Rao Bhriugu Nandhi Nadi astrology .The scholar discuss about the truth of Nadi methods and science facts of Nadi astrology based on that enhance the advancement of this Nadi systems .

II. NADI ASTROLOGY BASICS

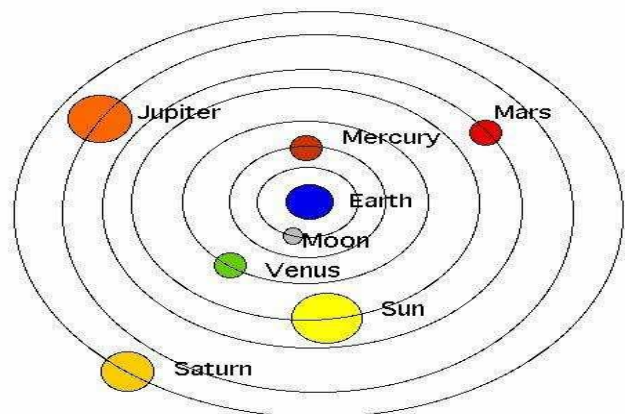

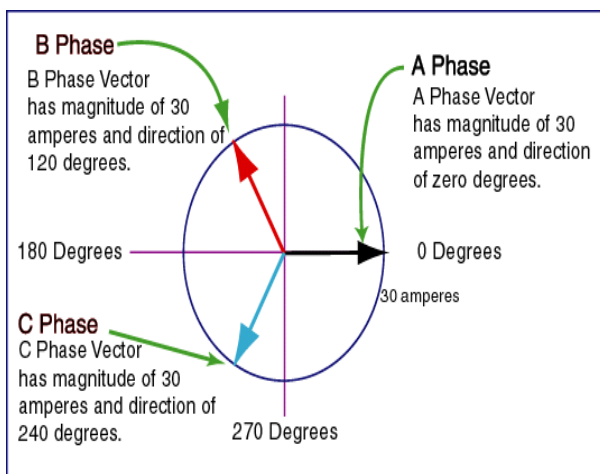

In Indian astrologer used Geo centric systems .In this systems earth assumed Centre and nearby five Planets namely Mercury, Venus, Mars ,Jupiter , Saturn ,earth's sub planet Moon and our Solar centered Sun and sun moon 's interaction points of southern nodes and northern nodes of the orbital paths namely Ragu and Ketu was the important role of the Indian Astrology. Science says all the objects in the celestial bodies are radiate the light waves with a support of photons at 3,00,000 km/seconds. It is weight less but its path full of covered by electric and magnetic induction in the form of sine wave. It may be visible or not based on that's wave length.

Astrology namely denoted Jothidam that means the way of light connectivity relations of earth to its human and natures towards to nearby Astronomical Solid, Gases and Invisibles celestial bodies connected through unknown physiological radiations from birth to end like SIM coding based on the planetary positions on birth and that only he alive in earth with the continuously connected to the planets transit and birth time activation code's planet positions. But it's result finding methodology many disputes discussed scientists weds astrologers, because of Astrology proved on statistical tests, existence astrological book law, theoretical frame work and reliability of the human. But we did not able to prove as a science at 100%, because presently

known Physiological forces are not able to fully describe the relations of astronomical or astrological truth .But the same time no suffice to claim that the astrology is not a science. In astrological scientists 2500 years ago written many physiological facts now a day's approved after measured the instrumentation like the distance of planets ,rotation periods, planets mass, diameters and planets structures .

Science says electric power/Magnetic induction has been work more powerful and work together in 120 degree phase angles at the way of 3 Ph power supply/3 Ph motor .The same manner in Nadi astrology describe the geo centric based earth surrounded sky ways splited at 12 parts entire 360 degree east to west direction based on earth's spins rotations ic 30 degree 1 part that means 0-30 degree , 120-150 degree , 240-270 degree (1,5,9) work together like as connectivity of electromagnetic energy bonding and express their result on same direction. Based on the same manner astrologically 1,5,9 houses are linked as a same house and work together at more powerful .

III. SCHOLAR'S ADVANCED RULE ON NADI ASTROLOGY

With reference the statistics and ancient Tamil Nadi base book Jathaka sinthamani the scholar conclude all the planets connected each other all the times .But their connectivity strength or weakness and support or oppose with their basic characters are changes based on the following rule

- The planets where it placed signs from the place to degree wise connected 30 degree at 100% on forward motion 1,5,and 9 at First level connectivity
- The planets where it placed signs from the place to degree wise connected 30 degree at 50% on forward motion 3,7,and 11 Second level connectivity
- The planets where it placed signs from the place to degree wise connected 30 degree at 25% on forward motion 2,6,and 10 Third level connectivity
- The planets where it placed signs from the place to degree wise connected 30 degree at 12.5% on forward motion 12,8and 4 Forth level connectivity

Ragu , kedhu and retrograded planets are do the connectivity at same manner at reverse motion

Also planets are their own character base relativity of each other its strength reformed positively or negatively reflect the result

IV. SCHOLAR'S RULE ATOMIC STAFF'S

Scholar handles the horoscopes of atomic energy station staff and discusses the NADI Rule at improved method and framed the Nadi Rule on below

- Rule -1.The professional planet Saturn first connected to Kedhu then connected to sun at positive connection . He get a chance to work in like atomic research Centre

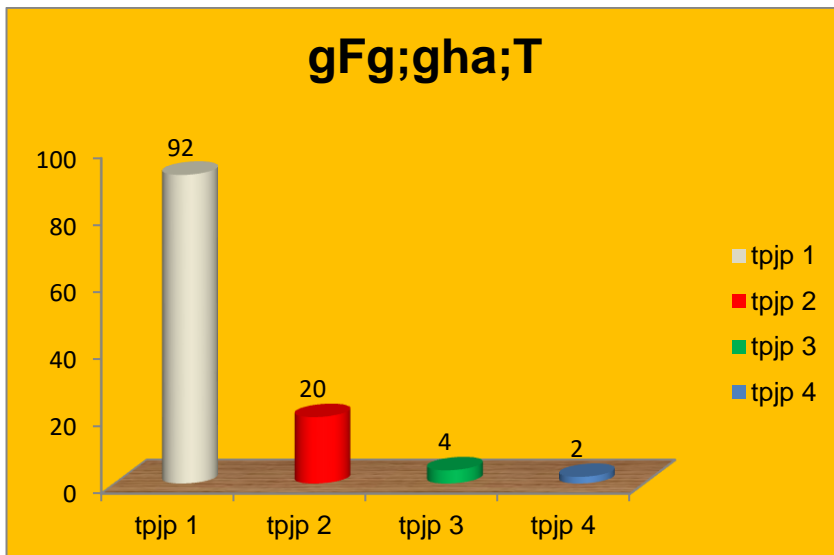

- Rule-2.The professional planet Saturn first connected to Kedhu then connected to leo and its good character planet at positive connection. He get a chance to work in like atomic research Centre
- Rule-3.The professional planet Saturn first connected to Scorpio and its good character planet then connected to sun at positive connection . He get a chance to work in like atomic research Centre
- Rule-4.The professional planet Saturn first connected to scorpio and its good character planet then connected to Leo and its good character planet at positive connection . He get a chance to work in like atomic research Centre .

V. SAMPLE HOROSCOPE

Name : **J. Vincent** Cell: 9994121961
 Date of Birth: 01.09.1976 Birth Time: 04.15
 Place of Birth: Pondicherry

SATURN	1-SA (107-137)	1-KE (341-11)	1-SU (135-185)	2-RA (191-161)	2-JU (37-67)	3-VE (155-185)	3-ME (161-191)	4-MA (161-191)	4-MO (212-242)	
			Ke-11		Jup-37					
			RASI						S Sat-107	
			Mo-212		Ra-191			Mer-161 Ven-155 Mar-161		

- Rule -1.The professional planet Saturn first connected to Ketu then connected to sun at positive connection. So he got a chance to work in atomic research Centre
- Rule -2.The professional planet Saturn first connected to Ketu then connected to Leo and its good character planet at positive connection. He get a chance to work in atomic research Centre

VI. CONCLUSION

Scholar discuss about the science facts involve in the Nadi Astrology and to prove the Nadi Rule based planets connectivity with the support of scholars advancement Nadi rule at Karma Karakan Saturn connectivity .It will help to further study of Advanced Nadi Rule and also helps to the society to find the futures & natures disasters in this methodology
